

ENVIRONMENTAL POLICY

Our company is a leading corporation that is well aware of its responsibilities for a sustainable environment, consequently it has developed and put into practice an effective and systematic environment management approach in order to minimise impacts of banking activities on the environment.

According to this approach, we intend and undertake;

To protect and utilise natural sources optimally,

To reduce and recycle wastes,

To offer environmentally sensitive products,

To increase resource saving and energy efficiency,

To abide by any current legal requirements and other terms and conditions relating to or otherwise associated with the environmental dimension(s),

To follow up with scientific and technological advancements in order to prevent environmental pollution, thus to improve our environmental performance constantly,

To raise environmental awareness of our employees, suppliers and customers.

We are committed to reducing the energy consumption of our suppliers operating in production by 25 percent by 2030.
